Use of Sports Funding at Mount Primary September 2015

For 2015-16 we have been delegated £9515 through the government's sports grant.

We have identified five key aims for the use of the sports funding:

1. Improve children's achievement and enjoyment in sports and physical education.
2. Improve the quality of physical education teaching by allowing our staff to work with high quality sports coaches who are trained in the delivery of the national curriculum. This will ensure that the funding has a legacy as our staff will become better trained in delivering P.E.
3. Continue to improve our children's engagement with competitive sports through a structured program of sports competitions and festivals with our local cluster of six primary schools.
4. Ensure that our children can access a wider range of extra-curricular sports clubs. Many of these will be at no cost to the child. This will increase their participation and improve their health and well-being.
5. Develop swimming programs that ensure all children can swim at the end of the primary school phase.

We will be monitoring all of these indicators during the year and evaluating their impact by:

- Tracking levels of participation including vulnerable groups.
- Assessing children's achievement in the physical education and sports including vulnerable groups
- Assessing children's attitudes towards sports and their health.

How the money is spent.

SCHOOL SPORT

1. We have **employed qualified sports coaches** for 1.5 days to work with our teachers to deliver high quality sports lessons across the curriculum. These will cover the whole range of teaching from Foundation 2 gymnastics, to Year 6 basketball.

- We have dedicated weekly teaching sessions for years 5 and 6 classes.
- Each KS1 and Foundation 2 class will receive weekly teaching. We believe that if we can engage our children at a young age, we can develop skills and attitudes towards sports

and health that will provide our children with a secure foundation.

- Our coaches also deliver four extra-curricular clubs every week.
2. **Specialist water sports provision at Marine Lake.** We have a great opportunity to work with our partners at Peak Pursuits who provide water sports tuition in years 5 & 6. We are using this local resource to develop new skills and water confidence in years 5 & 6. Children will be kayaking and sailing. We will be working towards the paddle power qualification.

3. **Facilitating sports competitions:**

At present we have developed the following calendar of sports competitions across the school. These will be introduced in 3 phases. They are:

1. Develop skills through high quality coaching and teaching.

2. Identify talent and introduce rules of games through intra school competitions. All teams are mixed gender teams. Every child in the school will participate in these.
3. Invite selected pupils to take part in an inter school competition within our cluster of six local primary schools. They are: New Brighton, Greenleas, St George's, Liscard and St Peter and Paul's RC primary schools. We expect over 120 children to participate in these.

Partnerships:

Many of our competitions are being supported by external sports clubs and bodies. Children are being sign-posted to local organisations to promote outside coaching and participation. They include:

- LTA tennis at Thorndale and Wallasey Manor Tennis Club
- ASA swimming through Wallasey Swimming Club
- Bromborough Bull Dogs basketball club
- New Brighton Gymnastics Club
- Sport England Netball
- Mini Rugby Tots
- Wirral's Tri Golf Club

We have a very strong partnership with our local primary schools and are also working with sports leaders at Weatherhead and Oldershaw Secondary schools.

4. Extra-curricular provision

Our school is committed to developing a wide range of extra-curricular provision. We will publish a termly record of all available clubs. All clubs will either be free or subsidised.

Already we have planned:

5. Additional Funding

In addition to this the school will also be providing direct funding for:

- Swimming in years 3, 4 and 6. Swimming is compulsory. Our explicit aim is that every child should be able to leave primary school able to swim independently. Year 6 provision will only be targeted at those children whose swimming requires improvement.
- Cycling proficiency training in years 5 and 6. Again we have an explicit aim that every child who participates (this is a voluntary activity) will leave primary school able to cycle and trained to cycle on the roads safely.
- Whole school tennis coaching in April 2016
- Subsidised residential activities in years 5 & 6 to provide tuition in water sports, climbing, abseiling etc. Taking place in November 2015.
