

# What is MFL?

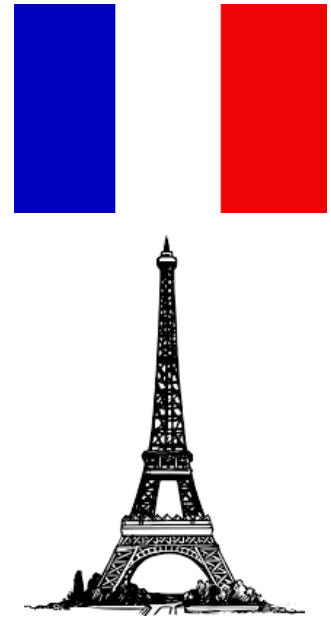

## MFL is .....

Learning to communicate with someone from another country in their own language and at Mount Primary this language is French.

Being confident in using French in everyday conversations and learning to listen carefully to another speaker and responding to them. Learning how to ask people about themselves, as well as expressing opinions and learning how to describe people and objects.

Developing our vocabulary by using dictionaries to understand new words and writing in short sentences to express our ideas.

Respecting the culture of France, by understanding how they celebrate traditions and festivals, as well as learning about their daily life compared to ours.

Someone who studies MFL is called a linguist.

Did you know that French is spoken in many countries around the world? These countries are called 'Les Pays Francophones'.

*Bonjour!*

*Au revoir!*

I will be learning these skills in MFL:

- Listening to other speakers and responding
- Writing short sentences
- Reading words and texts
- Working respectfully
